

Ideas Are Easy, Implementation is Hard? Leave that to us!

[GET STARTED](#)

Helix Tech for **STARTUPS**

3 SIMPLE STEPS TO GET STARTED

1

PLANT THE IDEA

We know you can't wait to share your EPIC idea with the world! So reach out to us, sign a Non-Disclosure Agreement and we will quickly set up a meeting to discuss your disruptive product idea and requirements. Plant the seeds in our heads, and trust us we will be just as enthusiastic about this idea as you are!

2

THE CATERPILLAR STAGE

This is where your idea (rather, our idea now) gets a bit more defined and comes to life. We evaluate your product concept, share our feedback and recommend the best fit for your idea into the **packages** that we have defined for you.

3

THE TRANSFORMATION

The final stage will transform the working model into a priceless piece of beauty. We will assign a **Product Manager** to work with you, as defined by the package that you choose to go with. And the time will soon be upon us for the world to behold the 'next big thing'!

APP MAKEOVER

Revamp how your app looks

[LEARN MORE](#)

APP ENHANCEMENT

Breath a fresh new life into your app

[LEARN MORE](#)

APP TRANSFORM

Turn your website into an app

[LEARN MORE](#)

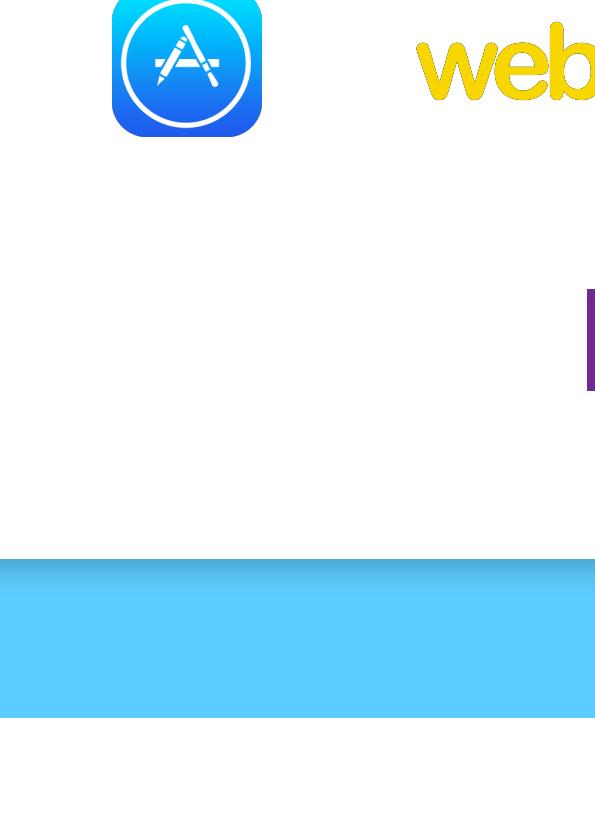

APP CLONE

Convert an android App to iOS and vice versa

SWIFT LAUNCH

Have a disruptive app idea that you are passionate about but lack the necessary expertise to implement it? We are here and happy to help. From ideation to launch – we offer a full suite of affordable services to quickly turn your idea into a fully functional prototype. Work with our team of seasoned mobility professionals and develop a product investors will find impossible to ignore. If you think your idea is worth a million bucks, we'll make sure it looks like it

AGILE DESIGN PROTOTYPING

We follow 'sprints' to rapidly design interfaces using inputs from user behaviour and psychology, & then create their mockups and wireframes. These designs are then tested, reviewed and tweaked upon iteratively to reach a stage where it is a treat for the User's eyes.

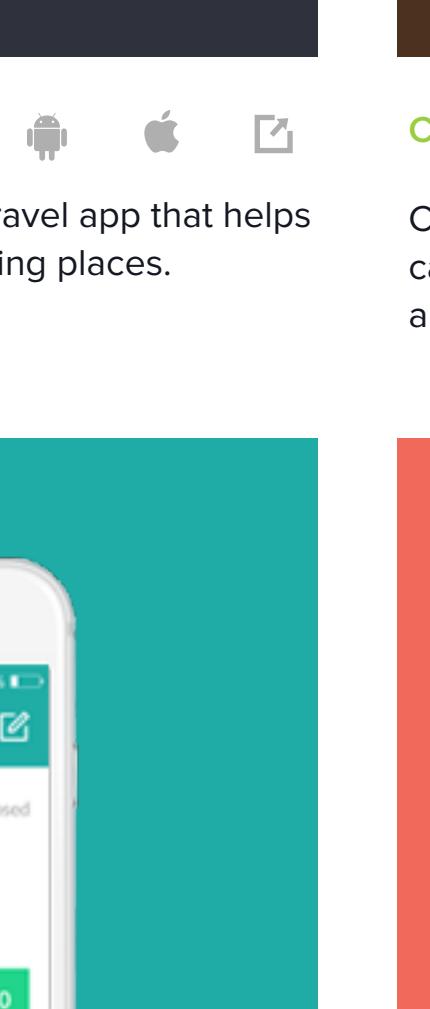

SWIFT GROW

If you are a funded startup eager to take your app to market, look no further. Whether you want your app to be built from scratch or want to improve and perfect an existing one, our vetted mobility team does it lightning fast. Our user and context driven approach, our latest technologies and framework drive your app to market. Actually, it does something even better. It drives the market to your app

PRODUCT DEVELOPMENT: IOT, MOBILE OR WEARABLE

The path from 'just an idea' to 'a revolutionary product' is the most critical part for any startup. You need to pack a lot of useful and critical features into an App while ensuring that the App is so simple that even your Grandmothers can use it. For our team, Simplicity is the core philosophy.

APP ROBUSTNESS & RELIABILITY

A spectacular design & an immaculate product can only take you so far. We will provide full support to you during the deployment stage as well. We will test the product comprehensively to iron out any bugs or loopholes, and ensure everything is secure and working like a well-oiled machine.

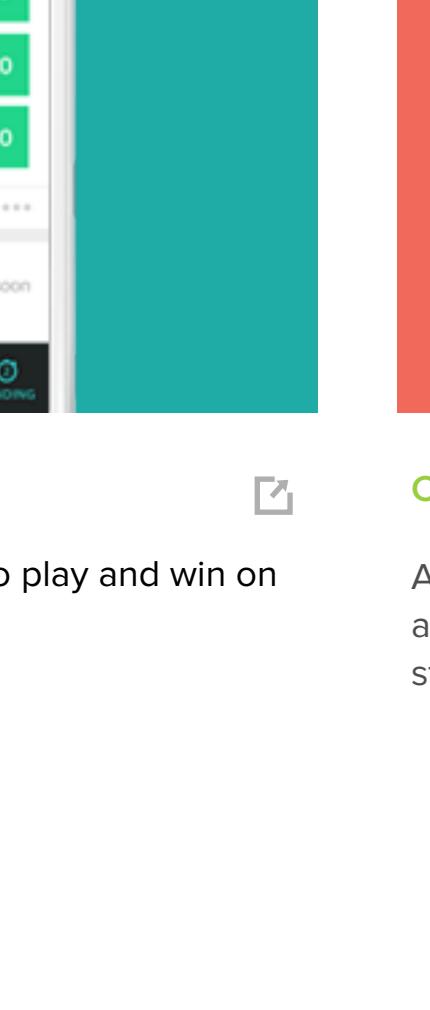

DYNAMIC CLOUD SERVICE

We will provide you with a dedicated team of cloud experts to ensure that the traffic of information to and from your users is smooth at all times. We even scale up or scale down servers based on the usage to ensure uninterrupted flow of data.

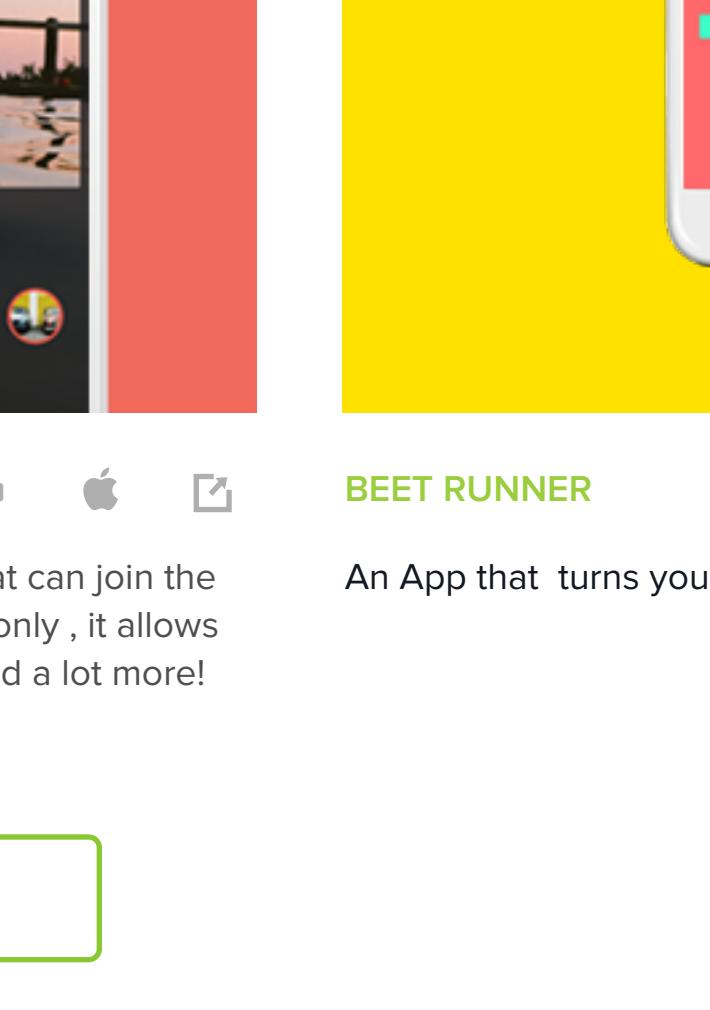

APP ROBUSTNESS & RELIABILITY
